ORIGEN RECEIVES CE MARK AND GLOBALLY LAUNCHES CRYOSTORE™ FLEX FREEZING BAG

*It is intended for cryopreservation of blood components and provides
the multi-chamber flexibility of small volume dose solutions*

AUSTIN, FEB 2022: OriGen Biomedical, Inc., a global medical device manufacturer of cryopreservation, cell culture, and respiratory products, announces the launch of its new CryoStore™ FLEX Freezing Bag in the USA and Europe. OriGen has been granted CE mark approval for the CryoStore™ FLEX Freezing Bag product line, indicating its compliance with specific requirements of relevant EU Medical Device Directives. OriGen strives to provide high-quality medical devices to improve patients' health and supports transformational therapies worldwide.

"We are so pleased and proud that our CryoStore FLEX Freezing Bag is now available to enable our customers' flexible storage volumes so they can benefit from the cryopreservation of scalable products," says Beth San Segundo, CEO and President of OriGen Biomedical, Inc. "We would like to thank the entire OriGen team for its ongoing hard work and continued attention and diligence in making OriGen the supplier of choice for single-use disposables within the cell and gene therapy market."

The new CryoStore FLEX Bag is intended for cryopreservation of blood components and provides the multi-chamber flexibility of small volume dose solutions. The CryoStore FLEX Bag has a convenient flat bag design and can be used for QA representative sample testing. The bag is manufactured of the same robust EVA copolymer as the OriGen industry-preferred CryoStore Bag, recognized for its durability.

For more information on the CryoStore Flex Bag, visit the [product page](#) on the OriGen website.

ABOUT ORIGEN BIOMEDICAL

OriGen Biomedical, Inc. is a leading producer of cryopreservation, cell culture, and intensive respiratory care products. OriGen's focus is to produce a range of products to support the treatment of cancer, genetic conditions, and other life-threatening diseases. Our products are designed with the patient and user in mind and we strive to maintain excellent customer service to ensure that patient care is the priority. Quality is the foundation of all product designs at OriGen, and each product is produced with the intention that it will improve patient health. Founded in 1997 and headquartered in Austin, Texas, OriGen is certified annually to ISO 13485 standards and regularly inspected by the FDA, MDSAP, ISO certification organizations, and our customers.
